

## INTRODUCTION

Maths-Master is a revolutionary new study tool developed to empower students and help them master a subject that many people find difficult.

More than the traditional textbook Maths-Master prompts you through each step of the problem, leading to the correct answer. Guidance is provided by means of reminders, pictures, diagrams and suggestions, leading all the way to the full solutions.

This approach means you have the equivalent of a private tutor on computer disc.

By constant revision and practice you will learn the patterns involved in solving problems and be well prepared for the exam.

## TO INSTALL MATHS-MASTER :

1. Insert the Maths-Master CD-ROM into your CD-ROM drive. The installer should start by itself in a few moments.

If the installer doesn't start automatically, from the Windows Start menu select Run. Enter the drive letter associated with your CD-ROM drive, then

`:\autorun.exe`

and click OK.

2. When the Installer appears, choose the Maths-Master product of your choice. You can always choose more products later by contacting us for an Unlock Code.
3. In the Choose Destination Location, the default location is in your computer's Program Files folder. Click the Browse button, located beside the white text box, to install Maths-Master into a different folder.
3. Once your Maths-Master product has been installed all you need to do in future is to click the Maths-Master icon which appears on your desktop, and this will run the program.
