

Maths-Master

Maths-Master is a revolutionary product developed to empower students and help them master a subject that many people find difficult. It is designed specifically for the Irish curriculum.

More than the traditional textbook Maths-Master prompts the student through each step of the problem, leading to the correct answer. Guidance is provided by means of reminders, pictures, diagrams and suggestions, leading all the way to the full solutions.

This approach means the student has the equivalent of a private tutor on computer disc.

By constant revision and practice the student will learn the patterns involved in solving problems and be well prepared for the exam.

Lingua-Master

The new release of Lingua-Master 2003 is the all in one package for mastering all areas of the exam, especially the Aural and Oral.

It is available for Irish, French and German. Both ordinary and higher levels are covered.

Students who use Lingua-Master throughout the year can be guaranteed to achieve their full potential in the exam.

Included is a 'Test Yourself' section as well as a dictionary with thousands of words and phrases. The student can print out both the transcripts and the questions and fill the answers in by hand or type the answers in.

Lingua-Master is an invaluable tool, not only for the oral and aural, but for all areas of language learning.
